# Pneumatic RAM Pump

Alemite's 9911-J 50:1 RAM pump is designed to work with tapered plastic pails. Plastic pail dimensions often vary based on the manufacturer. With the 9911-J's adjustable bung adapter, the downtube can be moved up or down to accommodate different pail heights. This means the 9911-J won't bottom out or leave excess grease at the bottom of the pail. This pump is also compatible with metal and/or straight-sided pails.

## Features

- Air inlet: 1/4" NPTF(f)
- Material outlet: 3/8" NPTF(f)
- Air motor diameter: 3"
- Flexible follower works with straight and tapered containers
- Compatible with pails ranging from 13-1/2" to 15-1/2" in height

## INCLUDED ITEMS:

- Control Valve (6320-3)
- 7' Material Hose (317875-7)
- Z-Swivel (B52752)
- Flexible Follower (337665)

## Specifications
